

Figure 1 illustrates the experimental design, showing two identical experimental runs. Each run begins with a 'Practice' phase (green bar) followed by a 'Test' phase (purple bar). The Test phase is divided into four blocks: Block 1 (purple), Block 2 (purple), Block 3 (purple), and Block 4 (purple). Each block contains a series of trials, with the first trial in each block being a 'Practice' trial (green bar). The trials are labeled with 'Practice' and 'Test'.
