

Position Title: **Broadcast Technician**

POSITION SUMMARY

Coordinates satellite feeds, editing, shooting, graphics and video productions for onboard television system and produces live special events and video shows by performing the following essential duties and responsibilities.

ESSENTIAL DUTIES AND RESPONSIBILITIES

The company, expects each shipboard team member to relentlessly exemplify the principles of the Anchored in Excellence Credo to all team members. In addition, all duties and responsibilities are to be performed in accordance with ***The company***, SQM standards, USPH guidelines, environmental, and safety policies.

Each shipboard employee may be required to perform all functions in various service venues and throughout the ship.

1. In accordance with ***The company*** philosophy of *Anchored in Excellence*, each employee conducts oneself in a professional and courteous manner at all times. This consists of physical and verbal interactions with guests or fellow shipboard employees and/or in the presence of guest contact and crew areas.
2. Reads television-programming log to ascertain program to be recorded or program to be aired on RCTV closed circuit television. Ensures all graphics reflect the current marketing strategy and ***The company***.
3. Selects pre-approved source, such as movies, satellite or local television stations, from which program will be recorded or transmitted, and selects videotaping equipment on which program will be recorded.
4. Observes quality control monitor to verify that station is on-air. Monitors television system to ensure all channels are operating appropriately within specifications and correct programming is being televised.
5. Maintains equipment and ensures proper function. Cleans videotape path to remove contaminants that would affect quality of recording or playback of videotaping equipment.
6. Sets audio level, and records test pattern and program onto videotape.
7. Verifies quality of recording before playback on television system.
8. Maintains quality tape stock and updates tape based programming.
9. Observes scales in video and color monitors and operates controls to adjust video and color levels. Assures video and audio levels are within appropriate range as to not cause distortion over television system.

10. Cues program and places videotaping equipment in remote control mode for use by other operator.
11. Operates videotaping equipment to dub and edit tapes.
12. Wires audio and video patch bays (socketed equipment that allows for transfer of audio and video signals between different pieces of equipment, via cables).
13. Operates videotaping equipment to record production and related shows performed onboard.
14. Maintains inventory and maintenance of all video equipment in the Cruise Director Division, including broadcast room, theatre, cinema and conference room.
15. Shoots, edits and produces “Cruise in Review” video. Promotes the sale of video with the photography department.
16. Shoots, edits and produces commercials to promote onboard revenue.
17. Attends meetings, training activities, courses and all other work-related activities as required.
18. Performs related duties as required. This position description in no way states or implies that these are the only duties to be performed by the shipboard employee occupying this position. Shipboard employees will be required to perform any other job-related duties assigned by their supervisor or management.
